

NORWICH BUILDING INCLINES TO GARAGES

Norwich building activity at the present time shows except in the way of new houses.

The following are the most recent permits issued by Fire Marshal Howard L. Stanton:

Napoleon Bonaparte is to erect a frame garage, 10x12, at 201 Central avenue.

Max Hanks plans to add a piazza to the house at 18 High street.

Each Enos of 45 Ward street is to have a veranda put on his home.

Joseph Strong will build a frame garage, 10x12, at 175 North Main street, on land of Benjie Brongro.

Edward F. Price of 33 McKinley avenue is to build a frame addition, 6x10, on his residence.

Patrick Curran will have a frame garage, 8x14, built at his residence 56 Ocean street.

John W. Waskowski of 149 Baltic street is to have a one-story frame garage, 10x18, built on his property.

A frame stable, 14 feet wide, 26 feet long and 22 feet high, is to be built by

the Kosciuszko and Pulaski Corporation, at the rear of 180-182 North Main street.

William and Rebecca Murray are to have a frame garage, 24x36, erected at Talman and Spruce streets.

James D'Attri will build a frame garage, 10x12, at 33 North Main street.

William Crowe of Summer street, is to have a frame garage, 24x24, built on his property.

The 16 permits granted in May were as follows:

New frame garages..... 8

New frame houses..... 1

New frame barns..... 1

Alteration of brick building..... 1

Alteration of frame building..... 1

Everett Byles is having a barn on Hobart avenue altered to make a garage that will accommodate two cars.

Within the near future the foundation work for the new St. Mary's church in Central avenue will be completed.

Bids for the superstructure closed Monday evening at the office of the Boston architects.

The main auditorium of the church will seat about 975 people with an equal number of sittings in the basement chapel. The basement chapel will in time be used exclusively by the children of the parish for their special Sunday masses.

The parish at present numbers about 2,100 people.

NEW LONDON.

A large brick extension is to be added to the building of the Brainerd & Armstrong Co. on Reed street. It will be 50x80 feet, costing \$6,000.

A house is being erected on Farmington avenue by M. Skoczylas for himself. It will be of frame construction, 24x28 feet, two stories high, with six rooms and bath, arranged for one family, with improvements. The cost will be \$3,000.

Silas Maxson, Jr., is erecting a cottage on Thames street. It is of wood, 21x35 feet, having six rooms and all improvements. It will cost \$4,000, and the work will be done by the day.

A house will be erected on Clark lane, Waterford, for Samuel Wallace, Perry Ice Co. It will be a frame house, to contain six rooms and all improvements.

Another brick addition, 14x40 feet, is being erected to the building at 58 Bank street for Jeremiah Twomey. The cost will be \$2,000.

Contractors are erecting a brick addition for Jeremiah Twomey at 87 Bank street. It will be 10x24 feet, and will supplant the frame structure now on the lot and make with the old brick addition an entire brick block out to the front. The cost will be \$3,000.

Building Permits.

Michael Skoczylas, frame house, Farmington avenue. Cost \$5,000.

Methodist Episcopal church, frame garage, Hempstead street. Cost \$500.

Maria D. Jones estate, alterations, Pearl street. Cost \$500.

William Carino, frame alterations, Belton street. Cost \$500.

Silas Maxson, Jr., frame cottage, Thames street. Cost \$4,000.

Brainerd & Armstrong Co., brick addition, Reed street. Cost \$6,000.

O. Peterson, alterations, Ocean avenue. Cost \$400.

Total number of permits for the week: 8; estimated cost of buildings, \$17,200.

STONINGTON.

The general contract for the erection of the residence of F. E. Carlyle, Springfield,

at Stonington, from the plans of Architects Bildebeck & Langdon, Inc., has been awarded to F. E. Weeks of Stonington. The house will be of wood, 24x35 feet, with every modern improvement.

The foundations are being put in for the new schoolhouse, here, and most of the contracts have been awarded.

REAL ESTATE SALES

Norwich had 22 sales of real estate the past week to 18 for the same week last year. The loans for the respective weeks amounted to \$35,308 and \$21,214.

In New London there were five sales of realty in the week just passed to 15 for the same week last year. The mortgage loans totaled \$9,457 and \$32,401 for the respective weeks.

STARTS CAMPAIGN AGAINST THE CARELESS SMOKERS

Smokers and users of matches caused destruction by fire of over \$1,800,000 worth of property in the United States during the five years, 1915-1919 inclusive, according to Fire Chief Howard L. Stanton, who has started a special campaign against the careless smokers of this city.

"We are not criticizing the habit of smoking," said Chief Stanton Monday, "but we do condemn the careless smokers who thoughtlessly cast lighted matches, cigar and cigarette stubs into waste baskets, rubbish piles or other places where combustible material is present."

"Considering that the American public consumes over 7,711,000,000 cigars, more than 42,426,000,000 cigarettes yearly, and 700,000,000 matches daily, it is not surprising that we have so many fires from this hazard."

The mileage of the cigarettes used in the course of a year would stretch a distance almost five times the length of America's steam railways. This large consumption does not excuse the

loss, however, but makes it evident that stringent precautions are necessary.

"Unfortunately," continued the chief, "there is considerable loss of life by burning because of careless smokers in factories and other places of business who snatch a smoke when the foreman is not looking. If discovery is threatened, the smoker is likely to get rid of his cigarette, cigar or pipe as rapidly as possible with little thought as to where it may land."

There have been numerous cases where fires have started in this way, in one New York shirt waist factory an operative threw a lighted cigarette stub into cotton scraps on the floor, and as a result of his thoughtlessness, 145 girls lost their lives in the fire and panic that followed.

"We have had two fires within twenty-four hours in our own city. In fact, smokers are responsible for a greater portion of our fire losses than any other agency except improperly used electricity and electrical appliances."

"It is an obvious truth that the American public is constitutionally careless and prone to take a chance. That is the reason we have such heavy fire losses as compared with European countries."

"The proper time to fight a fire is before it occurs, and I am asking employers of the city to enforce their 'No Smoking' rules and to be more careful themselves. Fire is a community problem and not a personal one, although there are not many people who realize this fact."

"The way to reduce the number of fires due to the use of matches and smoking materials is to make sure that neither lighted matches nor tobacco embers are ever disposed of in unsafe places. Break your match sticks in half after using them, and stamp upon your cigar and cigarette stubs, if you are outdoors. Indoors use a glass, metal or china ash receptacle."

"These precautions are as simple as two and two but if they had been practiced generally during the five years mentioned a large part of the \$1,800,000 fire loss from matches-smoking would have been saved to the nation."

MERIT BADGE EXAMINERS

FOR NORWICH BOY SCOUTS

The list of merit badge examiners for the council of the Boy Scouts of America has been appointed as follows:

Agriculture, County Agent H. F. Johnson; angling, James V. Norton, F. M. C. A.; agriculture, Arthur M. Thompson; auto, Orlan Dodge; astronomy, W. Tyler Ocott; athletics, R. V. Congdon; Raymond Case; automobile, Sidney Smith; bee keeping, Allen Latham; bird study, Walter K. Fuller; blacksmithing, H. C. Land; botany, F. A. Benton; bugling, John Swann; business, Arthur L. Pease; camping, Orlan Dodge; Major Charles A. Hagberg; carpentry, Louis Walden; William C. Jones; chemistry, Roy D. Judd; chess, Fred. Tirrell; conservation, Orlan Dodge; cooking, Captain Wm. R. Dennison; Victor Davis; craftsmanship—leather, William C. Rode, Jr.; craftsmanship—bookbinding, Walter Cowan; quilting, Wm. C. Jones; drying, County Agent Johnson, Otto F. Ernst; electricity, Lewis J. Smith; first aid, Dr. Lester Walker; first aid to animals, Dr. P. D. Cole; forestry, F. A. Benton; Orlan Dodge; gardening, Otto F. Ernst; handicraft, Henry Eastland, Wm. Stott; hiking, Arthur L. Pease; horsemanship, J. B. Stanton; leather working, Wm. C. Rode; life saving, E. J. Fritz, Y. M. C. A.; machinery, P. H. Cranston; marksmanship, P. B. Craven; Charles A. Hagberg; masonry, David H. Purdie; music, Robert W. Gills; painting, E. J. Duro; palming, Allen C. Mathews; personal health, Dr. L. P. LaPlante; photography, Don Houghton; physical development, E. J. Fritz; pioneering, Howard Lee; plumbing, Robert J. Cochran; poultry keeping, J. B. Tourtelotte; printing, Paul Bradley; public health, Dr. Louis Cassidy; safety, first, J. B. Stanton; scholarship, a teacher in public school the court attends; seamanship, Frederick B. Craven; signaling, Frederick B. Craven; stak-

PACKARD

THEY HAUL MORE FOR LESS

Our repeated assertion that the Packard truck hauls more for less might be open to challenge were it not for the unprejudiced testimony of thousands of men who in the ownership and operation of Packard trucks, have found them to be the most economical, the most dependable carriers on the job.

CONNECTICUT COLLEGE

On Memorial Day the athletic season

closed with an active program of outdoor sports. Interclass games in tennis decided the championship of the season, the sophomores winning in tennis and the freshmen in basketball. The sophomores came first in the track meet, and the seniors won a silver cup for their success in sports during the year.

At 4 o'clock the athletic association held its annual banquet at Thaw's hall, where, according to custom, the faculty served the students. At this time President Marshall's instructions in the physical education department, and the incoming president of the association, Miss Catherine McCarthy, '22, and the outgoing president, Miss Dorothy Walf, '21, who presided, gave short talks. Following the speeches, prizes, pennants, letters and numerals were awarded those who have excelled in athletics during the year. Shins, the highest award, were given to Miss Annabelle Bragg, '21, Middlebury, Miss Catherine McCarthy, '22, of Meriden, Miss Anna K. Buell, '22, of Danbury, Conn., and Miss Amy Hill, '24, of Sayville, L. I. The pennant, letters and numerals were awarded to the students representing the different classes.

On Wednesday evening, June 1, the dramatic club of the college presented J. M. Barrie's "The Boy David" at the Thaw's hall. The play was a great success, displaying to advantage much individual talent. Miss Virginia Eggleston, '24, of New London, took the part of the heroine, Phoebe. Her lovers, Capt. Valentine Brown, was played by Miss Jeanette Sperry, '22, of Oak Park, Ill. Others were Miss Marian P. Taylor, '22, of Middletown; Miss Elizabeth Holmes, '24, as the recruiting officer; Miss Alice Ramsey, '22, as Patty; maid to Miss Susan; Miss Melonia Mason, '23, as Miss Susan Thoms; Miss Katherine Franklin, '24, as Miss Harris; Miss Jessie Bigelow, '23, as Miss Fanny Willoughby; Miss Helen Clarke, '22, as Miss Willoughby; and Miss Lilien Thurgood, '24, as Miss Henrietta.

On June 2, Connecticut College definitely launched a campaign for an endowment of \$100,000. The campaign was started a year ago, but was suspended during the year because of unfavorable economic condition of the country.

On Thursday evening there was held in the gymnasium a meeting of the representatives of a body of students, faculty, trustees, and citizens of New London, who are to become a local advisory committee. An address was given by Dr. Lyman F. Stone, college advisor at large, who analyzed the need of the campaign and showed that the college was justified in making such an appeal.

Following the talks, Miss Dorothy Gregson of Norwich, president of the Student Government Association, reported upon the canvass among student and faculty for pledges of \$25 each, towards the endowment fund. The returns are not yet in, but so far \$12,000 have been pledged. The amount hoped for is \$100,000. The money is to be raised by giving a sum necessary to make available the gift of \$100,000 by the general board of education.

The meeting closed with a series of film pictures recently taken, showing a day's activities at college. These were most enthusiastically received by the students.

GROTON LIQUOR RAID

PRODUCE STILL AND WINE

Capt. George O. Vincent and Police-

men Charles Vining and John A. Mat-

thews, raided the house at 272

Thames street, in that borough, Sunday

night, and seized 120 gallons of

wine, a modern still and other ac-

cessories. With Policemen Vining and

Cracken, armed with a search war-

rant, Vincent, raided the place at 272

Thames street Saturday night and se-

ized more than 20 gallons of wine and

alleged liquors, a large press and other

liquor-making equipment. The squad al-

so raided the place known as the waiting

room on Thames street, where they se-

ized a small quantity of alleged liquor.

Those under arrest are: Paul Bruno,

272 Thames street; Nicholas De Palma,

of 241 Thames street and Patsy Viro,

proprietor of the waiting room. They

were brought before Judge C. Tyler

Landphar in town court Monday morn-

ing, but at the request of Attorney

George Curtis Morgan, counsel for the

defense, Prosecuting Attorney Warren B.

Burrows continued the cases until Mon-

day. The accused were released on \$100

bonds each. Francis Amabear Bruno,

wife of Paul Bruno, became surety.

The officers made the raids soon after

sunset in both instances. A borough

truck was used to haul the confiscated

liquor and equipment to police head-

quarters.

The Bruno raid netted two full barrels

of wine; one barrel three-fourths full

of wine; one barrel partly filled; two

five gallon jugs, full; one gallon jug, full;

one still; a gallon bottle, which contained

a half gallon of wine; one gallon bottle

partly filled with alleged moonshine

whiskey, and two barrels of mash. The

De Palma raid returns consisted of one

press; 18 one-half gallon bottles filled

with mash; one five-gallon bottle; three

gallon bottle of wine; six one-

gallon jugs of wine and one basket of

mash.

Some time ago the police department

received word that it was being accused

of standing in with the liquor sellers, and

shortly afterwards started cleaning up

the borough, beginning with a raid on

Jack Andriola's barber shop. The cap-

tain said Monday that he is going to

clean out some more of the bootleggers,

as soon as he can get sufficient infor-

mation to justify obtaining a search

warrant and making a raid.

OBJECTORS APPEAR AGAINST

BEACH MERRY-GO-ROUNDS

Chief Thomas F. Egan of the state po-

lice, who gave a preliminary hearing at

the court house in New London Sat-

urday afternoon on the petition of Charles

A. Cowan, Jr., for a license to operate a

merry-go-round at Ocean beach, said the

summer is to come to New London

on Wednesday at 2 p. m. to visit the beach,

have the merry-go-round operated and

with Charles H. Klinek, one of the ob-

jectors, will endeavor to arrive at a sat-

isfactory solution of the controversy.

It is expected that the merry-go-round

will be permitted to operate excepting

that the music will be muffled sufficiently

to eliminate further complaint. This

was done a year ago after objection had

been made.

The objectors questioned whether

Ocean beach is an amusement park, as

prescribed in the general statutes, and a

place where the state police may grant

licenses for amusements of various sorts.

Chief Egan said at the hearing Satur-

day that he has visited Ocean beach on

several occasions and certainly is of the

opinion that a part of Ocean beach is an

amusement park, as much as any park
